About the course SelectorHub tool for XPath css selectors

Course Presenter : SDET QA

Enhance your expertise in Computer Science with our comprehensive online course on SelectorHub tool for XPath and CSS selectors. Designed for aspiring developers and web automation professionals, this training course offers practical skills essential for effective web element identification and automation tasks. Mastering SelectorHub will empower you to streamline your workflow, improve testing accuracy, and boost your professional profile in the competitive tech industry. In this course, you will learn: - How to efficiently locate web elements using XPath and CSS selectors - The core features and functionalities of SelectorHub - Best practices for web automation and testing using SelectorHub - How to troubleshoot common issues in web element selection - Techniques to optimize your testing process for faster results This course is ideal for web developers, QA engineers, automation testers, and anyone interested in advancing their skills in web automation and testing. Whether you are starting your career or seeking to specialize in automation tools, this training provides the foundational knowledge and hands-on experience needed for success. Why choose this course on our platform? Our training course is designed by industry experts with extensive experience in Computer Science and automation testing. We provide practical, real-world scenarios to ensure you gain applicable skills that can be immediately implemented. Completing this Certified Course will enhance your professional portfolio, making you more competitive in the Middle East and beyond. Career opportunities after mastering SelectorHub include roles such as Automation Tester, QA Engineer, Web Developer, and Software Tester. This certification opens doors to career growth in software testing, quality assurance, and web development sectors across Saudi Arabia, UAE, and the broader Middle East. Upon successful completion, participants will receive a recognized Certificate that validates their skills in SelectorHub, XPath, and CSS selectors. This certification is a valuable asset for demonstrating your technical proficiency and advancing your career in the dynamic field of Computer Science. SDET QA

Computer Science Category's Courses

Course Lesson(13)

Lesson 1 : **SelectorsHub Tools AutoTestData Generate the Test Data just in 3 steps Free Tool**

Lesson 2 : **SelectorsHub Tools Testing Daily The Tester s Home Page Free Tool**

Lesson 3 : **SelectorsHub Tools TestCase Studio Write Test Cases Automatically**

Lesson 4 : **SelectorsHub Tools SelectorsHub XPath Selectors IDE Part 1**

Lesson 5 : **SelectorsHub Tools SelectorsHub XPath Selectors IDE Part 2**

Lesson 6 : **SelectorsHub Tools SelectorsHub XPath Selectors IDE Part 3**

Lesson 7 : **SelectorsHub Tools SelectorsHub XPath Selectors IDE Part 4**

Lesson 8 :
SelectorsHub Tools SelectorsHub Locating SVG Elements iFrames Shadow DOM Elements Part 5

Lesson 9 : **SelectorsHub 5 0 Tutorial SelectorsHub Free Vs Pro versions XPath CSS Selector Plugin**

Lesson 10 : **Check Broken Links Fast â€“ Free Chrome Tool Check My Links From SelectorsHub**

Lesson 11 :
Auto Data Filler Chrome Extension Free Tool to fill the data in one click From SelectorsHub

Lesson 12 :
Exploratory Tester Get Exploratory Testing Done in 1 Click Automatically with Report SelectorsHub

Lesson 13 :

Automation Tool Analyzer Real Time Automation Tool Comparison Choose a Right Tool SelectorsHub
