About the course Python for AI and selenium automation

Course Presenter : SDET QA

Unlock the potential of programming with our comprehensive online course, Python for AI and Selenium Automation. Designed for professionals seeking to enhance their technical skills, this training course provides an in-depth understanding of Python programming tailored specifically for AI applications and automation tasks. Whether you're aiming to improve your career prospects or develop innovative solutions, this certified course offers the essential knowledge to succeed in todayâ€™s competitive tech industry. Throughout this course, you will learn how to harness Pythonâ€™s power to build AI models, automate repetitive tasks, and develop efficient web scraping and testing scripts using Selenium. This hands-on training covers fundamental programming concepts, advanced automation techniques, and practical AI implementation, ensuring you gain real-world skills applicable across various industries in the Middle East, including Saudi Arabia and the UAE. This course is ideal for aspiring programmers, data analysts, QA engineers, and IT professionals eager to expand their expertise in automation and artificial intelligence. No prior experience in Python is required, making it accessible for beginners and seasoned developers alike looking to add valuable skills to their portfolio. Choosing this platform guarantees access to high-quality instruction delivered by industry experts. Our training course is designed to be flexible, allowing you to learn at your own pace, with interactive lessons, practical projects, and ongoing support to ensure your success. Upon completion, you will receive a recognized certificate that enhances your professional profile and showcases your commitment to continuous learning. Graduates of this course will be well-positioned for career growth in fields such as automation engineering, AI development, quality assurance, and data analysis. The skills acquired will open doors to roles that require advanced programming capabilities and automation expertise across the Middle Eastâ€™s expanding tech landscape. Enroll today to gain a certified qualification, boost your professional skills, and accelerate your career in programming, AI, and automation. This online training course is your pathway to mastering essential skills that are in high demand globally and particularly in the thriving markets of Saudi Arabia, UAE, and the broader Middle East. Programming Category's Courses

Course Lesson(10)

Lesson 1 : **Session 1 Python Programming for Selenium**

Lesson 2 : **Session 2 Python Programming for Selenium**

Lesson 3 : **Session 3 Python Programming for Selenium**

Lesson 4 : **Session 4 Python Programming for Selenium**

Lesson 5 : **Session 5 Python Programming for Selenium**

Lesson 6 : **Session 6 Python Programming for Selenium**

Lesson 7 : **Session 7 Python Programming for Selenium**

Lesson 8 : **Session 8 Python Programming for Selenium**

Lesson 9 : **Session 9 Python Programming for Selenium**

Lesson 10 : **Session 10 Python Programming for Selenium**
