About the course Selenium with python Step by step

Course Presenter : SDET QA

Unlock the power of automation and elevate your programming skills with our comprehensive online course, Selenium with Python Step by Step. This training course is designed to provide you with practical knowledge and hands-on experience in automating web applications, a vital skill for professionals seeking career growth in the rapidly evolving tech industry. Whether you're a beginner or looking to expand your professional skills, this certified course offers a structured path to mastering Selenium with Python, enhancing your value in the job market. In this course, you will learn how to: - Set up your development environment for Selenium and Python - Write robust automated test scripts for web applications - Use Selenium WebDriver to perform browser automation - Implement best practices for test automation frameworks - Integrate Selenium with other testing tools and frameworks - Debug and troubleshoot automation scripts effectively - Apply automation techniques to real-world scenarios for better productivity This course is ideal for software testers, QA professionals, developers, and IT professionals who want to add automation skills to their repertoire. It is also suitable for those preparing for certification in automation testing or aiming to advance their careers in software quality assurance. Choosing this course on our platform guarantees access to expert-led training, comprehensive learning materials, and a supportive online community. Our training course is designed to be flexible, allowing you to learn at your own pace while gaining the skills needed to succeed in competitive markets like Saudi Arabia, UAE, and the broader Middle East. Upon completion, you will receive a recognized Certificate of Achievement, validating your proficiency in Selenium with Python. This certification can significantly boost your professional profile, open new job opportunities, and accelerate your career growth in automation testing and software development sectors. Enroll today to start your journey toward becoming a certified automation expert and unlock new career possibilities in the dynamic world of programming and online testing. SDET QA

Programming Category's Courses

Course Lesson(15)

Lesson 1 : **Session 1 Selenium with Python**

Lesson 2 : **Session 2 Selenium with Python**

Lesson 3 : **Session 3 Selenium with Python**

Lesson 4 : **Session 4 Selenium with Python**

Lesson 5 : **Session 5 Selenium with Python**

Lesson 6 : **Session 6 Selenium with Python**

Lesson 7 : **Session 7 Selenium with Python**

Lesson 8 : **Session 8 Selenium with Python**

Lesson 9 : **Session 9 Selenium with Python**

Lesson 10 : **Session 10 Selenium with Python**

Lesson 11 : **Session 11 Selenium with Python**

Lesson 12 : **Session 12 Selenium with Python**

Lesson 13 : **Session 13 Selenium with Python**

Lesson 14 : **Session 14 Selenium with Python**
