About the course UX UI design for beginners

Course Presenter : Marketing Fundas Global

UX/UI Design course is a free certified course designed for beginners who want to learn how to create attractive, easy-to-use digital products. In this course, students will learn step by step how to understand user needs, analyze problems, build user personas, and create clear user journeys. The course explains the basics of user experience, interface design principles, colors, typography, spacing, buttons, forms, icons, and layout structure. Students will also learn how to design wireframes, create interactive prototypes, test designs, improve usability, and prepare professional screens for websites and mobile apps. By the end of the course, students will be able to design user-friendly interfaces, improve the user experience, and build a strong design portfolio. This course is completely free and includes an accredited certificate after completion. Marketing Fundas Global
