Computer Science Category's Courses

Course Lesson(16)

Lesson 1 :
Computer fundamentals Elements of computer processing system Component generations of computer

Lesson 2 :
Types of computer Types of computer in hindi analog digital computers Computer fundamentals

Lesson 3 :

Computer languages in hindi Translators in computer Level of computer language bbabcom bbasem1

Lesson 4 :
Types of software Types of software in computer Types of software in hindi bbabcom bbasem1

Lesson 5 :
Binary conversions Data representation and number system in computer in hindi bbabcom bbasem1

Lesson 6 :
Computer fundamentals Input and output devices in computer Types of printer Types of scanner

Lesson 7 :
Computer memory in hindi Types of Computer memory RAM and ROM difference in Hindi bbabcom sem1

Lesson 8 :
Introduction to database management system File management system in Hindi bbabcom bbasem1

Lesson 9 :
Operating system GUI and CUI difference in Hindi Operating system in computers ugcnet bbabcom

Lesson 10 :
Data communication and computer network guided media and unguided media Components of internet

Lesson 11 :
Networking in computer Types of networks Network topology in hindi LAN MAN WAN bca bbabcom

Lesson 12 :
Important questions of computer application in business important topics of computer bca bbasem1

Lesson 13 :
MS Office Suite in hindi Data processing and its types MS Access in hindi bbabcom bbasem1

Lesson 14 :
MS Word Features of MS Word Word processing Computer IT Applications Mail merge bbasem3

Lesson 15 :
Important questions of computer application in business important topics of computer bca bbasem3

Lesson 16 :
Presentation software Computer Bba MS Office Suite MS Powerpoint in hindi bbabcom bbasem1
