About the course Urban ecosystem fundamentals

Course Presenter : IIT Roorkee July 2018

Unlock the essential principles of urban ecosystems with this comprehensive online course designed for professionals and students interested in environmental science and urban planning. Understanding urban ecosystems is vital for creating sustainable cities that thrive in harmony with nature. This certified training course offers in-depth knowledge and practical insights, empowering you to contribute effectively to the development of sustainable urban environments in the Middle East, Saudi Arabia, UAE, and beyond. Throughout this course, you will learn how urban ecosystems function, the impact of human activities on city environments, and strategies for fostering ecological balance. Gain skills in analyzing urban environmental challenges and applying scientific principles to develop innovative solutions for sustainable urban growth. What you will learn: - Fundamentals of urban ecosystems and their components - The role of science in urban environmental management - Key factors influencing urban biodiversity and sustainability - Techniques for monitoring and assessing urban ecological health - Strategies for integrating green infrastructure and eco-friendly design - Policy implications and best practices for urban environmental planning - How to leverage scientific data for sustainable urban development This course is ideal for environmental scientists, urban planners, environmental policy makers, sustainability professionals, and students seeking to expand their expertise in urban ecology. It is also suitable for anyone passionate about making cities more sustainable and resilient. Why choose this course on our platform: - Accredited certification to boost your professional profile - Flexible online learning tailored for busy schedules - Expert instructors with extensive experience in urban ecology and environmental science - Access to comprehensive resources and practical case studies - Enhance your career growth with a recognized certificate in urban ecosystem fundamentals Upon completion, you will receive a professional certificate that validates your expertise in urban ecosystems, opening doors to new career opportunities in environmental consulting, urban planning, policy development, and sustainable city management. Enroll today to advance your knowledge and contribute to building greener, more sustainable urban environments in the Middle East and beyond. IIT Roorkee July 2018

Science Category's Courses

Course Lesson(61)

Lesson 1 : **Lecture 60 Concluding Remarks**

Lesson 2 : **Lecture 58 Concept of GeoSM NatEc**

Lesson 3 : **Lecture 59 Demonstration of GeoSM NatEc**

Lesson 4 : **Lecture 57 Case Study on BGI Solutions**

Lesson 5 : **Lecture 56 Risk and BGI Potential Assessment Tool**

Lesson 6 : **Lecture 55 BMP on Eco Engineering Solutions for Water**

Lesson 7 : **Lecture 54 Case Study on Eco Engineering Solutions for Waste Energy and Water**

Lesson 8 : **Lecture 53 Instrumented Study**

Lesson 9 : **Lecture 52 Ecology and Future Cities**

Lesson 10 : **Lecture 51 Science Engineering Technology and Innovation SETI**

Lesson 11 : **Lecture 47 Urban Ecosystem Assessment**

Lesson 12 : **Lecture 50 Urban Infrastructure Assessment**

Lesson 13 : **Lecture 49 Biodiversity City Biodiversity Index**

Lesson 14 : **Lecture 48 Biodiversity Ecological Footprint**

Lesson 15 : **Lecture 46 Challenges in Designing and Deploying NbS**

Lesson 16 : **Lecture 45 Policy Framework for Nature Based Solutions**

Lesson 17 : **Lecture 44 Application Potential for NbS**

Lesson 18 : **Lecture 43 Ecological Engineering EcoE**

Lesson 19 : **Lecture 42 Environmental Engineering EnvE**

Lesson 20 : **Lecture 41 Blue Green Infrastructure**

Lesson 21 :
Lecture 40 Ecosystem based Adaptation EbA Ecosystem based Disaster Risk Reduction Eco DRR

Lesson 22 : **Lecture 39 NbS for Climate Adaptation and Urban Resilience**

Lesson 23 : **Lecture 38 Transformative Solutions Nature based Solutions Basics**

Lesson 24 : **Lecture 37 Mitigation and Adaptation**

Lesson 25 : **Lecture 36 Disaster Risk and Climate Change**

Lesson 26 : **Lecture 35 Role of Urban Governance for Ecosystem Protection**

Lesson 27 : **Lecture 34 Urban Landscape Ecology As A Planning Strategy**

Lesson 28 : **Lecture 33 Social Aspects Intertwined with Urban Ecosystems**

Lesson 29 : **Lecture 32 Urban Ecology**

Lesson 30 : **Lecture 31 Effects of Urban Development on Urban Ecosystems**

Lesson 31 : **Lecture 30 Urban Ecosystem Services**

Lesson 32 : **Lecture 29 Evaluation of Ecosystem Services ESS II**

Lesson 33 : **Lecture 28 Evaluation of Ecosystem Services I**

Lesson 34 : **Lecture 27 Types of ESS**

Lesson 35 : **Lecture 26 Ecosystem Services**

Lesson 36 : **Lecture 25 The IPCC and Biodiversity Conventions**

Lesson 37 : **Lecture 24 Urban Ecosystem and Biodiversity**

Lesson 38 : **Lecture 23 Case Studies City and Ecosystem Theories**

Lesson 39 : **Lecture 22 City and Ecosystem Theories**

Lesson 40 : **Lecture 21 Ecosystem Concepts for Urban Integration**

Lesson 41 : **Lecture 20 Carrying Capacity**

Lesson 42 : **Lecture 19 Urban Ecosystem Balance**

Lesson 43 : **Lecture 18 Urban Ecosystem Imbalances and Challenges**

Lesson 44 : **Lecture 17 Urban Heat**

Lesson 45 : **Lecture 16 Urban Ecosystem â€“ CO2 and Methane**

Lesson 46 : **Lecture 15 Demonstration of Urban Ecosystem and Water**

Lesson 47 : **Lecture 14 Urban Ecosystem and Water**

Lesson 48 : **Lecture 13 Urban Metabolism**

Lesson 49 : **Lecture 12 Urban Ecosystem Functions and Processes**

Lesson 50 : **Lecture 11 Urban Ecosystem Components**

Lesson 51 : **Lecture 10 Demonstration of Ecosystem Theory and Concept**

Lesson 52 : **Lecture 9 Ecosystem Theories**

Lesson 53 : **Lecture 8 Ecosystem Concepts**

Lesson 54 : **Lecture 7 Ecosystem Types Case Examples**

Lesson 55 : **Lecture 6 Ecosystem Types**

Lesson 56 : **Lecture 5 Examples of Ecosystem Process and Function**

Lesson 57 : **Lecture 4 Ecosystem Process**

Lesson 58 : **Lecture 3 Ecosystem Functions**

Lesson 59 : **Lecture 2 Ecosystem Basics Including Ecology**

Lesson 60 : **Lecture 1 Introduction to Urban Ecosystem**

Lesson 61 : **Urban Ecosystem**
