About the course Metallurgical aspects of material processing

Course Presenter : IIT Roorkee July 2018

This comprehensive online course on the metallurgical aspects of material processing offers a deep dive into the fundamental principles and advanced techniques used in modern engineering. Designed for professionals and students in the field of engineering, this training course provides valuable insights into metallurgical processes that are crucial for material development, quality control, and innovation. Enrolling in this certified course will enhance your technical expertise, support your career growth, and empower you with practical skills applicable across various industries including manufacturing, aerospace, automotive, and construction. Throughout this course, you will learn: - The basic principles of metallurgy and material science - Techniques for analyzing and testing metallurgical properties - The processes involved in metal extraction, refining, and alloying - Heat treatment and surface engineering methods - Quality assurance and failure analysis in metallurgical processes - Latest advancements and trends in material processing technologies This course is ideal for engineering professionals, material scientists, quality engineers, and students seeking to expand their knowledge in metallurgical processes. It is also suitable for those looking to enhance their professional skills and stay competitive in the evolving engineering landscape within the Middle East, including Saudi Arabia and the UAE. Choosing this online training course on our platform guarantees access to high-quality content curated by industry experts. Our flexible learning environment allows you to study at your own pace, making it easier to balance professional commitments with skill development. Completing this certified course not only boosts your technical credentials but also opens up new opportunities for career advancement in the engineering sector. Upon successful completion, you will receive a professional certificate that validates your expertise in metallurgical material processing. This recognition can significantly improve your employability and position you as a skilled engineer capable of tackling complex metallurgical challenges in your industry. Enroll today to take the next step in your professional journey and unlock new career possibilities in the dynamic field of engineering. IIT Roorkee July 2018

Engineering Category's Courses

Course Lesson(61)

Lesson 1 : **Material Processing Metallurgical Aspects Fundamental and Practical Promo Video**

Lesson 2 : **Lec 01 Materials Processing Scope**

Lesson 3 : **Lec 02 Materials Processing Introduction**

Lesson 4 : **Lec 03 Materials Processing Metal Forming and Plasticity**

Lesson 5 : **Lec 04 Materials Processing Plasticity and Structure**

Lesson 6 : **Lec 05 Materials Processing Cold and Hot working**

Lesson 7 : **Lec 06 Materials Processing Recovery and Recrystallization**

Lesson 8 : **Lec 07 Metal forming Rolling**

Lesson 9 : **Lec 08 Metal forming Forging**

Lesson 10 : **Lec 09 Metal forming Extrusion**

Lesson 11 : **Lec 10 Metal forming Wire Drawing**

Lesson 12 : **Lec 11 Sheet Metal Operations Fundamentals**

Lesson 13 : **Lec 12 Sheet Metal Operations Drawing**

Lesson 14 : **Lec 13 Press for metal forming I**

Lesson 15 : **Lec 14 Press for metal forming II**

Lesson 16 : **Lec 15 Additional metal forming processes**

Lesson 17 : **Lec 16 Advances in Metal Forming**

Lesson 18 : **Lec 17 Die Die set and Die materials for metal forming**

Lesson 19 : **Lec 18 Sheet metal forming Stock Layout Nesting**

Lesson 20 : **Lec 19 Metallurgy and metal forming**

Lesson 21 : **Lec 20 Heat treatment in metal forming**

Lesson 22 : **Lec 21 Joining of metals Fundamentals I**

Lesson 23 : **Lec 22 Joining of metals Fundamentals II**

Lesson 24 : **Lec 23 Joining of metals Fundamentals III**

Lesson 25 : **Lec 24 Welding of metals Fundamentals IV**

Lesson 26 : **Lec 25 Welding of metals Metal Characteristics**

Lesson 27 : **Lec 26 Welding of metals Arc welding I**

Lesson 28 : **Lec 27 Welding of metals Arc welding II**

Lesson 29 : **Lec 28 Welding of metals Arc welding processes I**

Lesson 30 : **Lec 29 Welding of metals Arc welding processes II**

Lesson 31 : **Lec 30 Welding of metals Arc welding processes III**

Lesson 32 : **Lec 31 Welding of metals Heat affected zone of TH metals**

Lesson 33 : **Lec 32 Welding of metals Heat affected zone of WH and PH metals**

Lesson 34 : **Lec 33 Welding of metals Solid state joining process I**

Lesson 35 : **Lec 34 Welding of metals Solid state joining process II**

Lesson 36 : **Lec 35 Welding of metals SSJ and RSW**

Lesson 37 : **Lec 36 Welding of metals Welding metallurgy I**

Lesson 38 : **Lec 37 Welding of metals Welding metallurgy II**

Lesson 39 : **Lec 38 Welding of metals Dissimilar metal welding**

Lesson 40 : **Lec 39 Welding of metals Hybrid joining**

Lesson 41 : **Lec 40 Welding of metals Improving weld joint properties I**

Lesson 42 : **Lec 41 Welding of metals Improving weld joint properties II**

Lesson 43 : **Lec 42 Metal casting Overview**

Lesson 44 : **Lec 43 Metal casting Pattern and Mould**

Lesson 45 : **Lec 44 Metal casting Moulding**

Lesson 46 : **Lec 45 Metal casting Casting processes**

Lesson 47 : **Lec 46 Metal casting Quality of casting**

Lesson 48 : **Lec 47 Metal casting Casting defects**

Lesson 49 : **Lec 48 Metal casting Metallurgical issues of casting**

Lesson 50 : **Lec 49 Metal casting Die casting and Sand mould casting comparison**

Lesson 51 : **Lec 50 Metal casting Improving the performance of casting**

Lesson 52 : **Lec 51 Metal casting Heat treatment of castings**

Lesson 53 : **Lec 52 Powder Metallurgy Scope**

Lesson 54 : **Lec 53 Powder Metallurgy Powder characteristics**

Lesson 55 : **Lec 54 Powder Metallurgy Steps of manufacturing**

Lesson 56 : **Lec 55 Practical Lab Demonstration Pattern making moulding and casting**

Lesson 57 : **Lec 56 Practical Lab Demonstration Shielded metal arc welding of steel**

Lesson 58 :
Lec 57 Practical Lab Demonstration Heat treatment TIG re melting FSP and image analysis

Lesson 59 : **Lec 58 Practical Lab Demonstration Gas welding and gas cutting of steel**

Lesson 60 : **Lec 59 Practical Lab Demonstration GTAW of similar and dissimilar steels**

Lesson 61 : **Lec 60 Practical Lab Demonstration Friction stir welding**
