# About the course LeetCode solutions and coding interview

## Course Presenter : The Knowledge Academy

Enhance your programming skills and accelerate your career growth with our comprehensive free online programming course focused on LeetCode solutions and coding interview preparation. This training course is designed to equip aspiring software developers and experienced programmers with the essential problem-solving techniques needed to succeed in technical interviews and real-world coding challenges. Throughout this online course, you will learn how to approach complex algorithmic problems efficiently, master data structures, and develop optimal coding strategies. Our carefully curated curriculum covers a wide range of topics, including dynamic programming, recursion, graph algorithms, and system design principles, all tailored to improve your problem-solving speed and accuracy. What you will learn: - Proven strategies to solve LeetCode problems effectively - Techniques for mastering common coding interview questions - In-depth understanding of data structures and algorithms - How to optimize code for performance and scalability - Best practices for technical interview preparation - Tips for building a strong coding portfolio This course is ideal for software engineers, computer science students, and IT professionals aiming to improve their programming skills, prepare for technical interviews, or earn a recognized certification. Whether you are looking to land a new job, advance in your current role, or develop professional skills, this training course provides the necessary tools to succeed. Why choose this course on our platform: - Free online programming course accessible anytime, anywhere - Certified course to validate your skills and knowledge - Expert-led training with practical coding exercises - Flexible learning schedule suited for busy professionals - Join a community of motivated learners in the Middle East and beyond Career opportunities after completing this course include roles such as Software Developer, Technical Interviewer, Coding Trainer, or Software Engineer at top tech companies. The certification earned upon course completion adds value to your professional profile, showcasing your problem-solving and coding expertise. Enroll today to start your journey toward mastering programming, gaining certification, and unlocking new career opportunities in the tech industry. This is your chance to develop professional skills that open doors to success in the competitive world of software development. The Knowledge Academy

**Programming Category's Courses**

# Course Lesson(12)

Lesson 1 : **LeetCode 3497â€“ Analyse Subscription Conversion Pandas Leetcode Interview Question**

Lesson 2 : **LeetCode 3475 â€“ DNA Pattern Recognition Pandas Leetcode Interview Question**

Lesson 3 : **LeetCode 3220 â€“ Odd and Even Transactions Pandas Leetcode Interview Question**

Lesson 4 : **LeetCode 3421 â€“ Find Students Who Improved Pandas Leetcode Interview Question**

Lesson 5 :
**LeetCode 1934 Confirmation Rate Solution Leetcode Interview Question The Knowledge Academy**

Lesson 6 : **LeetCode 1321 â€“ Restaurant Growth Solution SQL Leetcode Interview Question**

Lesson 7 : **LeetCode 601 Human Traffic Of Stadium Solution SQL Leetcode Interview Question**

Lesson 8 : **LeetCode 262 TRIPS and USERS Solution SQL Leetcode Interview Question**

Lesson 9 : **LeetCode 1393 Capital Gain Loss Solution SQL Leetcode Interview Question**

Lesson 10 : **Leetcode 1070 Product Sales Analysis III Solution SQL Leetcode Interview Question**

Lesson 11 : **Leetcode 175 Combine Two Tables Solution SQL Leetcode Interview Question**

Lesson 12 : **Leetcode 185 Department Top 3 Salaries Solution SQL Leetcode Interview Question**
