About the course Learn machine learning from Beginner

Course Presenter : The Knowledge Academy

Unlock the potential of Artificial Intelligence with our comprehensive online course designed for beginners. This training course offers a clear pathway into the world of machine learning, equipping you with essential skills to enhance your professional profile and accelerate career growth in the rapidly evolving field of AI. Whether you're starting your journey in technology or seeking to expand your expertise, this certified course provides the foundational knowledge necessary to succeed in todayâ€™s competitive job market. Throughout this course, you will learn how to understand core concepts of machine learning, including data analysis, model building, and algorithm implementation. The curriculum is designed to be accessible for beginners, yet thorough enough to provide a strong foundation in artificial intelligence. Key topics covered include supervised and unsupervised learning, neural networks, decision trees, and real-world applications of AI across various industries. This course is ideal for aspiring data scientists, software engineers, IT professionals, or anyone interested in developing professional skills in artificial intelligence. No prior coding experience is required, making it perfect for beginners eager to enter the AI domain. Choosing this online training course on our platform guarantees access to expert-led instruction, flexible learning schedules, and a recognized certification upon completion. Our platform is trusted by professionals across the Middle East, including Saudi Arabia and the UAE, who aim to upgrade their skills and stay competitive in the digital economy. Completing this certified course opens doors to numerous career opportunities in AI and machine learning, such as data analyst, AI developer, or machine learning engineer. It also provides a valuable credential to showcase your dedication to continuous learning and professional development. Enroll now to gain a solid understanding of artificial intelligence, earn a professional certificate, and take a significant step forward in your career growth. Our training course is your gateway to mastering the fundamentals of AI and preparing for future technological advancements. The Knowledge Academy

Artificial Intelligence Category's Courses

Course Lesson(28)

Lesson 1 : **Machine Learning What Is Machine Learning Introduction To Machine Learning 2025**

Lesson 2 : **AI vs ML vs DL Difference Explained In 5 Mins The Knowledge Academy**

Lesson 3 :
Mathematics For Machine Learning Full Course Part 1 Machine Learning Tutorial For Beginners

Lesson 4 : **Maths For Machine Learning Full Course Machine Learning Mathematics Part 2**

Lesson 5 :
Data Retrieving Exploratory Data Analysis for Machine Learning The Knowledge Academy

Lesson 6 : **Data Cleaning Exploratory Data Analysis for Machine Learning The Knowledge Academy**

Lesson 7 :
Data Exploration Exploratory Data Analysis for Machine Learning The Knowledge Academy

Lesson 8 :
Data Visualisation Exploratory Data Analysis for Machine Learning The Knowledge Academy

Lesson 9 : **Data Modeling Exploratory Data Analysis for Machine Learning The Knowledge Academy**

Lesson 10 :
What is Regression Introduction to Regression with Real Life Examples Linear Regression

Lesson 11 :
What is Linear Regression Introduction to Linear Regression Linear Regression in 8 minutes

Lesson 12 : **What is K Nearest Neighbor Algorithm KNN KNN Classification Introduction Part 1**
