Computer Science Category's Courses

Course Lesson(56)

Lesson 1 : **Tasks for Linear Algebra**

Lesson 2 : **What is a vector zerotomath**

Lesson 3 : **Matrices and their use in the Machine Learning**

Lesson 4 : **Important Resources to learn zerotomath**

Lesson 5 : **Linear Algebra and important definitions**

Lesson 6 : **Cartesian coordinates Geometry and Algebra zerotomath**

Lesson 7 : **Unit Vectors zerotomath**

Lesson 8 : **Scalars and scaling a vector zerotomath**

Lesson 9 : **Vector addition zerotomath**

Lesson 10 : **Vector Spaces**

Lesson 11 : **Vector span and Linear Dependence of vectors zerotomath**

Lesson 12 : **x and y intercepts in linear algebra zerotomath**

Lesson 13 : **Dot product of vectors zerotomath**

Lesson 14 : **Cross product of vectors zerotomath**

Lesson 15 : **Basis Vectors and Transformation zerotomath**

Lesson 16 : **Linear Transformation and Matrices zerotomath**

Lesson 17 : **Matrices are Linear Transformations zerotomath**

Lesson 18 : **Shear Transformation in linear algebra zerotomath**

Lesson 19 : **Why do we need transformations in linear algebra zerotomath**

Lesson 20 : **Matrix Multiplications as Composition zerotomath**

Lesson 21 : **Matrices and Types Part 1 2 zerotomath**

Lesson 22 : **Matrices and Types Part 2 2 zerotomath**

Lesson 23 : **Addition and Subtraction of Matrices zerotomath**

Lesson 24 : **Matrix Multiplication in linear algebra zerotomath**

Lesson 25 : **Why do we need Matrix multiplication zerotomath**

Lesson 26 : **Determinant of a Matrix zerotomath**

Lesson 27 : **Inverse of a Matrix zerotomath**

Lesson 28 : **System of Equations in linear algebra zerotomath**

Lesson 29 : **Types of linear Equations zerotomath**

Lesson 30 : **Writing System of Equations zerotomath**

Lesson 31 : **Matrix Form of Writing system of equations zerotomath**

Lesson 32 : **Assignment alert for next lectures**

Lesson 33 : **System of Equations and solving them zerotomath**

Lesson 34 : **Graphical Method to solve system of equations zerotomath**

Lesson 35 : **Substitution Method to solve system of equations zerotomath**

Lesson 36 : **Elimination method to solve system of equations zerotomath**

Lesson 37 : **Matrix Inversion Method to solve system of equations zerotomath**

Lesson 38 : **Advance Methods to resolve system of equations zerotomath**

Lesson 39 : **Assignment for next lectures**

Lesson 40 : **Advance Methods to solve system of Equations zerotomath**

Lesson 41 : **Gaussian Elimination Method to solve equations 1 2 zerotomath**

Lesson 42 : **Gaussian Elimination Method to solve equations 2 2 zerotomath**

Lesson 43 : **Gauss Jordan Elimination Method to solve equations zerotomath**

Lesson 44 : **LU Decomposition Method to solve systemofequations zerotomath**

Lesson 45 : **Singular Value Decomposition SVD method systemofequations zerotomath**

Lesson 46 : **Row Operations Gaussian Elimination Methods zerotomath**

Lesson 47 : **Eigenvalues and Eigenvectors zerotomath**

Lesson 48 : **SVD in Python with Coding zerotomath**

Lesson 49 : **Next Tasks to learn**

Lesson 50 : **Learn Linear Algebra in Notes zerotomath**

Lesson 51 : **Solve System of equations in Python zerotomath**

Lesson 52 : **Solve system of complex equations in python**

Lesson 53 : **Vectors in python zerotomath**

Lesson 54 : **Linear Transformation in python zerotomath**

Lesson 55 : **Shear Transformation in python zerotomath**

Lesson 56 : **singular value decompositions SVD in python zerotomath**
