Mindluster Platform

About the course Access Basics

Access consists of four main database objects: Tables, Queries, Forms, and Reports. Each object has at least two views, Design and "Data". The Design View is where we build the structure of that database object. The data view shows the output of the data and is different for each object .

Programming Category's Courses

Course Lesson(8)

Lesson 1 : **Introduction to Access Basics | Access Basics for Beginners**

Lesson 2 : **Opening Access | Access Basics for Beginners**
