Mindluster Platform

About the course The Complete Linux

Linux, like its predecessor Unix, is an open-source operating system kernel. Since Linux is protected under the GNU Public License, many users have imitated and altered Linux source code. Linux programming is compatible with C++, Perl, Java, and other programming languages.

Programming Category's Courses

Course Lesson(2)

Lesson 1 : **The Complete Linux Course Beginner to Power User**

Lesson 2 : **Linux System Administration Full Course**
