Mindluster Platform

About the course Android JetPack

Jetpack is a collection of libraries plus guidance on how Google recommends building Android applications. These libraries all have Java APIs, so you don't need to move to Kotlin to use any of them. Both languages are still completely supported for Android development .

Programming Category's Courses

Course Lesson(17)

Lesson 1 : **Android JetPack Course Introduction to JetPack 49**

Lesson 2 : **Android Architecture Components Android JetPack 50**

Lesson 3 : **Data Binding in Android Android Architecture Components 51**

Lesson 4 : **Data Binding App Android Architecture Components 52**

Lesson 5 : **How To Make Simple RC Airplane For Simple Radio Control DIY RC Aiplane Arduino RC**

Lesson 6 : **Android JetPack Course LifeCycle Aware Lesson 53**

Lesson 7 : **Android JetPack Course LifeCycle Aware APP 54**

Lesson 8 : **Model View View Model MVVM Android JetPack Course 55**

Lesson 9 : **Room Database part 1 Prepare Configure Room 56**

Lesson 10 : **Room Database part 2 Entity 57**

Lesson 11 : **Room Database part 3 Data Access Object 58**

Lesson 12 : **Android JetPack Course Room Database Class 59**

Lesson 13 : **Android JetPack Course Room Database Class 60**

Lesson 14 : **Room Database App EditNote Activity 61**

Lesson 15 : **Room Database App Main Activity 62**

Lesson 16 : **Room Database App Running the Note Taking App 62**

Lesson 17 : **Build Note Taking App using Room Database Master Coding**
