Mindluster Platform

About the course SASS Intro and Setup

Sass is a CSS pre-processor with syntax advancements. Style sheets in the advanced syntax are processed by the program, and turned into regular CSS style sheets. However, they do not extend the CSS standard itself. CSS variables are supported and can be utilized but not as well as pre-processor variables .

Programming Category's Courses

Course Lesson(16)

Lesson 1 : **Learn SASS Intro and Setup**

Lesson 2 : **Learn SASS Output Styles and Sassmeister**

Lesson 3 : **Learn SASS Nesting and Parent References**

Lesson 4 : **Learn SASS Using mixin and include**

Lesson 5 : **Learn SASS Using extend**

Lesson 6 : **Learn SASS import and partials**

Lesson 7 : **Learn SASS Custom Functions**

Lesson 8 : **Learn SASS Placeholder Selectors**

Lesson 9 : **Learn SASS Built in Functions**

Lesson 10 : **Learn SASS Interpolation**

Lesson 11 : **Learn SASS Lists and Loops**

Lesson 12 : **Learn SASS content Directive**

Lesson 13 : **Learn SASS DataTypes and Operators**

Lesson 14 : **Learn SASS for Loops**

Lesson 15 : **Learning SASS if statements Episode 15**

Lesson 16 : **Learning SASS content directive Episode 16**
