Mindluster Platform

About the course JSON

JavaScript Object Notation (JSON) is a standard text-based format for representing structured data based on JavaScript object syntax. It is commonly used for transmitting data in web applications (e.g., sending some data from the server to the client, so it can be displayed on a web page, or vice versa) .

Programming Category's Courses

Course Lesson(5)

Lesson 1 : **Jackson Convert JSON to Java Object Example**

Lesson 2 : **Gson How to convert Java object to from JSON**

Lesson 3 : **GSON Serializing and Deserializing Enums**

Lesson 4 : **Java Servlet JSON Example Tutorial Return JSON Response from Servlet**

Lesson 5 : **How to use JSON Formatter Online Tool | Java Guides**
