Mindluster Platform

About the course Kubernetes and Docker

Kubernetes is open-source orchestration software that provides an API to control how and where those containers will run. It allows you to run your Docker containers and workloads and helps you to tackle some of the operating complexities when moving to scale multiple containers, deployed across multiple servers .

Programming Category's Courses

Course Lesson(3)

Lesson 1 : **Introduction to Kubernetes and Docker**

Lesson 2 : **Kubernetes Installation and Setup Tutorial**

Lesson 3 : **Deploy Docker to Kubernetes Cluster**
