About the course Data Science high level

What is data science course? Data science can be defined as a blend of mathematics, business acumen, tools, algorithms and machine learning techniques, all of which help us in finding out the hidden insights or patterns from raw data which can be of major use in the formation of big business decisions.What does a data scientist do? By extrapolating and sharing these insights, data scientists help organizations to solve vexing problems. Combining computer science, modeling, statistics, analytics, and math skillsâ€”along with sound business senseâ€”data scientists uncover the answers to major questions that help organizations make objective decisions.What is data science in simple words? Data science is the field of study that combines domain expertise, programming skills, and knowledge of mathematics and statistics to extract meaningful insights from data. ... In turn, these systems generate insights which analysts and business users can translate into tangible business value.Is data science a good career? A Highly Paid Career Data Science is one of the most highly paid jobs. According to Glassdoor, Data Scientists make an average of $116,100 per year. This makes Data Science a highly lucrative career option.

Computer Science Category's Courses

Course Lesson(20)

Lesson 1 : **Learn Data Science Tutorial Full Course for Beginners**

Lesson 2 : **Statistics A Full University Course on Data Science Basics**

Lesson 3 : **Python for Data Science Course for Beginners Learn Python Pandas NumPy Matplotlib**

Lesson 4 : **Data Analysis with Python Course Numpy Pandas Data Visualization**

Lesson 5 : **Data Analysis with Python Full Course for Beginners Numpy Pandas Matplotlib Seaborn**

Lesson 6 : **Build 12 Data Science Apps with Python and Streamlit Full Course**

Lesson 7 : **Data Science Hands On Crash Course**

Lesson 8 : **Data Visualization with D3 js Full Tutorial Course**

Lesson 9 : **R Shiny for Data Science Tutorial â€“ Build Interactive Data Driven Web Apps**

Lesson 10 : **R Programming Tutorial Learn the Basics of Statistical Computing**

Lesson 11 : **Python for Bioinformatics Drug Discovery Using Machine Learning and Data Analysis**

Lesson 12 : **Intro to Data Science Crash Course for Beginners**

Lesson 13 : **Applied Deep Learning with PyTorch Full Course**

Lesson 14 : **Tableau for Data Science and Data Visualization Crash Course Tutorial**

Lesson 15 : **jamovi for Data Analysis Full Tutorial**

Lesson 16 : **Data Analysis with Python Part 1 of 6 Live Course**

Lesson 17 : **Data Analytics Crash Course Teach Yourself in 30 Days**

Lesson 18 : **Data Analysis with Python for Excel Users Full Course**

Lesson 19 : **Data Visualization with D3 â€“ Full Course for Beginners 2022**
