Mindluster Platform

About the course GraphQL Workshops

GraphQL is faster than REST because as you can pick the fields you want to query, so the request will always be the smallest possible.Is GraphQL replacing rest? GraphQL is an alternative to REST for developing APIs, not a replacement. The main feature of GraphQL is to be able to send a query specifying only the information you need and get exactly that. And it is not difficult to implement. There are many JSON API libraries in many languages.Is GraphQL better than rest? With REST, you have to make three requests to different endpoints to fetch the required data. You're also overfetching since the endpoints return additional information that's not needed. In GraphQL on the other hand, you'd simply send a single query to the GraphQL server that includes the concrete data requirements.Is GraphQL stateless? GraphQL is often referred to as more efficient than REST because it allows clients to ask for multiple resources in one request, which saves round trips, and also allows clients to filter down to only the fields they actually need. ... And yes, it's stateless just like REST is.

Programming Category's Courses

Course Lesson(16)

Lesson 1 : **Using GraphQL ReactJS and Apollo To Create Amazing Apps**

Lesson 2 : **From REST To GraphQL**

Lesson 3 : **GraphQL In Production**

Lesson 4 : **Graph Databases Will Change Your Freakin Life Best Intro Into Graph Databases**

Lesson 5 : **Creating Web Apps With React GraphQL and Drupal**

Lesson 6 : **GraphQL The Good Parts**

Lesson 7 : **Going GraphQL**

Lesson 8 : **Having Your Cake and Eating It Too GraphQL in REason**

Lesson 9 : **GraphQL in Python**

Lesson 10 : **Building Robust GraphQL APIs with AWS Amplify and AWS AppSync**

Lesson 11 : **Curious Use Cases of GraphQL and The Future of GraphQL**

Lesson 12 : **Build Scalable APIs Using GraphQL and Serverless**

Lesson 13 : **Building Realtime Serverless APIs with GraphQL and Azure**

Lesson 14 : **GraphQL Tooling Today Tomorrow**

Lesson 15 : **Strong RESTful Contracts in a GraphQL World || Tejas Kumar**

Lesson 16 : **GraphQL Simplified GraphQL hooks Workshop**
