# About the course GraphQL in Python

How do I become a python expert? 11 Beginner Tips for Learning Python Programming Make It Stick. Tip #1: Code Everyday. Tip #2: Write It Out. Tip #3: Go Interactive! Tip #4: Take Breaks. ... Make It Collaborative. Tip #6: Surround Yourself With Others Who Are Learning. Tip #7: Teach. Tip #8: Pair Program. ... Make Something. Tip #10: Build Something, Anything. Tip #11: Contribute to Open Source. Go Forth and Learn.How long does it take to become Python expert? On average it takes about 6-8 weeks to learn the basics. This gets you enough time to understand most lines of code in Python. If you want to become an expert in Python and its field and plan on getting into data science then months and years of learning is needed.Is it good to learn Python in 2020? It supports various frameworks such as Flask and Django by which anyone can make web applications very easily. Python would prove to be the best choice as it not only help you to get a job very easily but gives us many opportunities for future career advancement and self-growth also.What are advanced Python topics? Want to become an intermediate python developer then read this blog to know about 10 advanced topics in python. How Everything in python is Object? Comprehension (Multiple and Nested) Extended Keyword Arguments (*args, **kwargs) Closures and Decorators. Generators and Iterators Protocol. Context Managers.

**Programming Category's Courses**

# Course Lesson(72)

Lesson 1 : **What Does It Take To Be An Expert At Python**

Lesson 2 : **Creating Awesome 3D Animations With Python In Blender**

Lesson 3 : **Top To Down Left To Right || James Powell**

Lesson 4 : **Python Web Scraping Tools A Survey**

Lesson 5 : **Python Generators || James Powell**

Lesson 6 : **Interactive Visualizations in JupyterLab and PixiJS || Jeremy Tuloup**

Lesson 7 : **Introduction To Data Analytics With Pandas || Quentin Caudron**

Lesson 8 : **Data Visualization and Exploration with Python || Stephen Elston**

Lesson 9 :
**Help I Just Inherited 50 000 Lines of Code What Do I Do â€” A Practical Guide || James Powell**

Lesson 10 : **MicroPython â€“ Python for Microcontrollers**

Lesson 11 : **High Performance Data Processing in Python || Donald Whyte**

Lesson 12 : **Using Python in Weather Forecasting || Stephan Siemen**

Lesson 13 : **PyTorch 1 0 Now and in the Future || Adam Paszke**

Lesson 14 : **Anvil Full stack Web Apps with Nothing but Python**

Lesson 15 : **CUDA In Your Python Effective Parallel Programming on the GPU**

Lesson 16 : **What is all the Fuss About Python**

Lesson 17 : **Explore Your Data and Then Let Others Do It Too Plotly Express and Dash**

Lesson 18 : **Unleash The Power of C In Python**

Lesson 19 : **Async Awaiting Production**

Lesson 20 : **Cloud Made Simple with Serverless Python**

Lesson 21 : **A Deep Dive into NLP with PyTorch**

Lesson 22 : **Pandas for Fun and Profit Using Pandas for Successful Investing**

Lesson 23 : **MicroPython Used in Industrial Applications**

Lesson 24 : **Typesetting With Python**

Lesson 25 : **Python as C s Limiting Case**

Lesson 26 : **Breaking Pandas**

Lesson 27 : **Python 2020**

Lesson 28 : **Surviving Without Python**

Lesson 29 : **Build your Python Extensions with Rust**

Lesson 30 : **Parallelism in Python**

Lesson 31 : **Getting to Know any Dataset in 4 Lines of Python || Eyal Trabelsi**

Lesson 32 : **Advanced Asyncio Solving Real World Production Problems**

Lesson 33 : **A Demo of tqdm**

Lesson 34 : **An Introduction to ASGI Asynchronous Server Gateway Interface**

Lesson 35 : **Pandas In 10 Minutes || Wes McKinney**

Lesson 36 : **What Makes Python Python aka Everything About Python s Grammar**

Lesson 37 : **Training Intelligent Game Agents Using Deep Reinforcement Learning || Imran Rashid**

Lesson 38 : **Delivering Python AI Products for Businesses at Massive Scale || Eleanor Ainy**

Lesson 39 : **Python Standard Library The Hidden Gems**

Lesson 40 : **How Thinking in Python Made Me a Better Software Engineer**

Lesson 41 : **Shooting Hoops with Keras and TensorFlow || Zack Akil**

Lesson 42 : **Numpy What Has Changed and What Is Going To Change**

Lesson 43 : **Parallel Computing in Python Current State and Recent Advances**

Lesson 44 : **GraphQL in Python**

Lesson 45 : **d3fdgraph Interactive Graphs in Jupyter || Tariq Rashid**

Lesson 46 : **Writing a PEG Parser For Fun and Profit**

Lesson 47 : **Using Data to Automate Knowledge Generation || Ella Bor**

Lesson 48 : **Optimizing Docker Builds for Python Applications**

Lesson 49 : **Intro to Probability and Statistics**

Lesson 50 : **Getting Started with Python in Visual Studio Code**

Lesson 51 : **Is Spark Still Relevant Spark vs Dask vs RAPIDS**

Lesson 52 : **Objectionable Content Python Object Model || James Powell**

Lesson 53 :

Untitled12 ipynb Prevent Miles of Scrolling Reduce the Spaghetti Code from the Copy Pasta

Lesson 54 : Publishing Perfect Python Packages on PyPi

Lesson 55 : A Primer on Gaussian Processes for Regression Analysis || Chris Fonnesbeck

Lesson 56 : Why You Should Care About Types in Python

Lesson 57 : Stars Black Holes and Snake Python

Lesson 58 : Beautiful Python Refactoring

Lesson 59 : Why Python Is Huge In Finance

Lesson 60 : Introduction To Data Analysis in Python

Lesson 61 : An Open Source Chatbot Made With Rasa

Lesson 62 : Getting an Edge with Network Analysis with Python || Alon Nir

Lesson 63 : The Flair Framework for Text Analytics and NLP Research || Alan Akbik

Lesson 64 : Monads in Python Why and How

Lesson 65 : Introduction to Machine Learning with Time Series || Markus Loning

Lesson 66 : Modern Principled Data Science Workflow || Eric Ma

Lesson 67 : Playing By the Rules Based Systems || Vincent Warmerdam

Lesson 68 : Parallel Processing in Python || Aaron Richter

Lesson 69 : Why Transformers Work Natural Language Processing

Lesson 70 : VS Code and Data Science Tools

Lesson 71 : Modern Time Series Analysis with STUMPY || Sean Law

Lesson 72 : Asyncio Understanding Async Await in Python
