Mindluster Platform

About the course Machine Learning Field

Machine learning is the study of computer algorithms that improve automatically through experience and by the use of data. It is seen as a part of artificial intelligence.What is the best programming language for machine learning? Related Articles Python. Python leads all the other languages with more than 60% of machine learning developers are using and prioritising it for development because python is easy to learn. ... Java. ... C++ ... R. ... Javascript.Is machine learning hard? Why is machine learning 'hard'? ... There is no doubt the science of advancing machine learning algorithms through research is difficult. It requires creativity, experimentation and tenacity. Machine learning remains a hard problem when implementing existing algorithms and models to work well for your new application.

Computer Science Category's Courses

Course Lesson(14)

Lesson 1 : **Machine Learning**

Lesson 2 : **What is Machine Learning**

Lesson 3 : **What is Machine Learning**

Lesson 4 : **Machine Learning Making Sense of a Messy World**

Lesson 5 : **What is Artificial Intelligence or Machine Learning**

Lesson 6 : **Machine Learning and Human Bias**

Lesson 7 : **Artificial Intelligence and Machine Learning**

Lesson 8 : **Introduction to Deep Learning Machine Learning vs Deep Learning**

Lesson 9 : **Machine Learning over Coffee with Josh Gordon Coffee with a Googler**

Lesson 10 : **This Is How Facebook Is Using Machine Learning Tech | Fortune**

Lesson 11 : **Machine learning s next evolution Machine teaching**

Lesson 12 : **What is Machine Learning**

Lesson 13 : **How Instagram Uses Machine Learning To Help You Explore**

Lesson 14 : **Thank You**
