Mindluster Platform

About the course Javascript From 0 full data

Javascript is used by programmers across the world to create dynamic and interactive web content like applications and browsers. JavaScript is so popular that it's the most used programming language in the world, used as a client-side programming language .

Programming Category's Courses

Course Lesson(37)

Lesson 1 : **Javascript crash course | part00 Intro | Quick programming tutorial**

Lesson 2 :
Javascript crash course | part01 alert and console log functions | Quick programming tutorial

Lesson 3 :
Javascript crash course | part02 Selecting elements and using variables | Quick programming tutorial

Lesson 4 : **Javascript crash course | part03 Loops | Quick programming tutorial**

Lesson 5 : **Javascript crash course | part04 Change element attributes | Quick programming tutorial**

Lesson 6 :
Javascript crash course | part05 innerHTML and outerHTML | Quick programming tutorial

Lesson 7 : **Javascript crash course | part06 Conditions | Quick programming tutorial**

Lesson 8 : **Javascript crash course | part07 Functions | Quick programming tutorial**

Lesson 9 : **Javascript crash course | part08 Objects arrays | Quick programming tutorial**

Lesson 10 : **Javascript crash course | part09 Event listeners | Quick programming tutorial**

Lesson 11 : **Javascript crash course | part10 Class list | Quick programming tutorial**

Lesson 12 : **Javascript crash course | part11 JSON | Quick programming tutorial**

Lesson 13 : **Javascript crash course | part12 AJAX | Quick programming tutorial**

Lesson 14 : **Javascript crash course | part13 Practical project | Quick programming tutorial**

Lesson 15 : **Javascript crash course | part14 Database | Quick programming tutorial**

Lesson 16 : **Javascript crash course | part15 Database connection | Quick programming tutorial**

Lesson 17 : **Javascript crash course | part16 Returning a result | Quick programming tutorial**

Lesson 18 : **Javascript crash course | part17 Returning a result 2 | Quick programming tutorial**

Lesson 19 : **Javascript crash course | part18 Fixing the table | Quick programming tutorial**

Lesson 20 : **Javascript crash course | part19 Cell editing | Quick programming tutorial**

Lesson 21 : **Javascript crash course | part20 Cell editing inline | Quick programming tutorial**

Lesson 22 : **Javascript crash course | part21 Fixing cell editing | Quick programming tutorial**

Lesson 23 : **Javascript crash course | part22 Key press events | Quick programming tutorial**

Lesson 24 : **Javascript crash course | part23 Selective editing | Quick programming tutorial**

Lesson 25 : **Javascript crash course | part24 Selecting a cell | Quick programming tutorial**

Lesson 26 : **Javascript crash course | part25 Select using keyboard | Quick programming tutorial**

Lesson 27 : **Javascript crash course | part26 Select using keyboard 2 | Quick programming tutorial**

Lesson 28 : **Javascript crash course | part27 Select using keyboard 3 | Quick programming tutorial**

Lesson 29 : **Javascript crash course | part28 Select using keyboard 4 | Quick programming tutorial**

Lesson 30 : **Javascript crash course | part29 Selected cell info | Quick programming tutorial**

Lesson 31 : **Javascript crash course | part30 Add a sub menu | Quick programming tutorial**

Lesson 32 : **Javascript crash course | part31 Sub menu functions | Quick programming tutorial**

Lesson 33 : **Javascript crash course | part32 Add main menu | Quick programming tutorial**

Lesson 34 :
Javascript crash course | part33 Collect data for saving to database | Quick programming tutorial

Lesson 35 :
Javascript crash course | part34 Sending data from ajax to php | Quick programming tutorial

Lesson 36 :
Javascript crash course | part35 Sending data from ajax to php 2 | Quick programming tutorial

Lesson 37 : **Javascript crash course | part36 Final code | Quick programming tutorial**
