Programming Category's Courses

Course Lesson(226)

Lesson 1 : **Introduction to Python Hindi**

Lesson 2 : **Download Geeky Shows Core Python Study Material**

Lesson 3 : **How Python Work Hindi**

Lesson 4 : **Python Virtual Machine Hindi**

Lesson 5 : **How to Install Python and PyCharm Hindi**

Lesson 6 : **How to run Python Program using Command Line Window Hindi**

Lesson 7 : **How to run Python Program using IDLE Hindi**

Lesson 8 : **How to run Python Program using Notepad Hindi**

Lesson 9 : **How to Run Python Program using PyCharm Hindi**

Lesson 10 : **How to Run Python Program using Visual Studio Code Hindi**

Lesson 11 : **Identifier in Python Hindi**

Lesson 12 : **Reserved words in Python Hindi**

Lesson 13 : **Constant in Python Hindi**

Lesson 14 : **Variable in Python Hindi**

Lesson 15 : **Data Type in Python Hindi**

Lesson 16 : **Built in Data Types in Python Hindi**

Lesson 17 : **Declaring and Initializing Variables in Python Hindi**

Lesson 18 : **Arithmetic Operators in Python Hindi**

Lesson 19 : **Relational or Comparison Operator in Python Hindi**

Lesson 20 : **Logical Operators in Python Hindi**

Lesson 21 : **Assignment Operators in Python Hindi**

Lesson 22 : **Bitwise Operator in Python Hindi**

Lesson 23 : **Membership Operators in Python Hindi**

Lesson 24 : **Identity Operators in Python Hindi**

Lesson 25 : **Operator Precedence and Associativity in Python Hindi**

Lesson 26 : **Implicit and Explicit Type Conversion in Python Hindi**

Lesson 27 : **Output Statement or Print Function in Python Hindi**

Lesson 28 : **Getting input from user or Input Statement or input Function in Python Hindi**

Lesson 29 : **Escape Sequence in Python Hindi**

Lesson 30 : **If Statement in Python Hindi**

Lesson 31 : **Nested if Statement in Python Hindi**

Lesson 32 : **if Statement with Logical Operator in Python Hindi**

Lesson 33 : **Indentation in Python Hindi**

Lesson 34 : **if else Statement in Python Hindi**

Lesson 35 : **Nested if else Statement in Python Hindi**

Lesson 36 : **if elif and if elif else Statement in Python Hindi**

Lesson 37 : **While Loop and Nested while Loop in Python Hindi**

Lesson 38 : **range Function in Python Hindi**

Lesson 39 : **for loop and Nested for Loop in Python Hindi**

Lesson 40 : **Break Statement and Continue Statement in Python Hindi**

Lesson 41 : **Pass Statement in Python Hindi**

Lesson 42 : **Array in Python Hindi**

Lesson 43 : **One Dimensional Array using Array Module in Python Hindi**

Lesson 44 : **Accessing Array using for Loop Array Module in Python Hindi**

Lesson 45 : **Accessing Array using while Loop Array Module in Python Hindi**

Lesson 46 : **append Method in Python Hindi**

Lesson 47 : **Getting Array input from user using for Loop in Python Hindi**

Lesson 48 : **Getting Array Input from user using while Loop in Python Hindi**

Lesson 49 : **insert Method in Python Hindi**

Lesson 50 : **pop Method in Python Hindi**

Lesson 51 : **remove Method in Python Hindi**

Lesson 52 : **index Method in Python Hindi**

Lesson 53 : **reverse Method in Python Hindi**

Lesson 54 : **extend Method in Python Hindi**

Lesson 55 : **Slicing on Arrays in Python Hindi**

Lesson 56 : **How to install and Uninstall Python Packages Hindi**

Lesson 57 : **How to install numpy in Python Hindi**

Lesson 58 : **One Dimensional Numpy Array using array Function Hindi**

Lesson 59 : **Accessing One Dimensional Numpy Array using for Loop in Python Hindi**

Lesson 60 : **Accessing One Dimensional Numpy Array using while Loop in Python Hindi**

Lesson 61 : **Numpy One Dimensional Array using linspace Function in Python Hindi**

Lesson 62 : **Numpy One Dimensional Array using logspace Function in Python Hindi**

Lesson 63 : **Numpy One Dimensional Array using arange Function in Python Hindi**

Lesson 64 : **Numpy One Dimensional Array using zeros Function in Python Hindi**

Lesson 65 : **Numpy One Dimensional Array using ones Function in Python Hindi**

Lesson 66 : **Math Operations on Arrays using Numpy in Python Hindi**

Lesson 67 : **Comparing Numpy Arrays in Python Hindi**

Lesson 68 : **any and all Functions in Python Hindi**

Lesson 69 : **where Function in Python Hindi**

Lesson 70 : **nonzero Function in Python Hindi**

Lesson 71 : **Aliasing Array in Python Hindi**

Lesson 72 : **view Method and copy Method in Python Hindi**

Lesson 73 : **Getting input from user in Numpy One Dimensional Array using for Loop Python Hindi**

Lesson 74 :
Getting input from user in Numpy One Dimensional Array using while Loop Python Hindi

Lesson 75 : **Two Dimensional Numpy Array using array Function in Python Hindi**

Lesson 76 : **Accessing Numpy Two Dimensional Array using for Loop in Python Hindi**

Lesson 77 : **Accessing Numpy Two Dimensional Array using while Loop in Python Hindi**

Lesson 78 : **Numpy Two Dimensional Array using zeros Function in Python Hindi**

Lesson 79 : **Numpy Two Dimensional Array using ones Function in Python Hindi**

Lesson 80 : **reshape Function and flatten Method in Python Hindi**

Lesson 81 : **Input from user in numpy Two Dimensional Array using for Loop in Python Hindi**

Lesson 82 : **Input from User in Numpy Two Dimensional Array using while Loop in Python Hindi**

Lesson 83 : **Slicing on Two Dimensional Array in Python Hindi**

Lesson 84 : **Attributes of Numpy Array in Python Hindi**

Lesson 85 : **String in Python Hindi**

Lesson 86 : **How to Find String Length in Python Hindi**

Lesson 87 : **Access String using Loop in Python Hindi**

Lesson 88 : **Difference between Mutable and Immutable Object in Python Hindi**

Lesson 89 : **Immutable String in Python Hindi**

Lesson 90 : **Repetition Operator in Python Hindi**

Lesson 91 : **Concatenation Operator in Python Hindi**

Lesson 92 : **Comparing String in Python Hindi**

Lesson 93 : **C Style String Formatting in Python Hindi**

Lesson 94 : **format Method in Python Hindi**

Lesson 95 : **f String or Formatted String Literal in Python Hindi**

Lesson 96 : **upper lower swapcase and title String Functions in Python Hindi**

Lesson 97 : **isupper islower and istitle String Functions in Python Hindi**

Lesson 98 : **isdigit isalpha and isalnum String Functions in Python Hindi**

Lesson 99 : **isspace String Function in Python Hindi**

Lesson 100 : **lstrip rstrip and strip String Function in Python Hindi**

Lesson 101 : **replace split and join String Functions in Python Hindi**

Lesson 102 : **startswith and endswith String Functions in Python Hindi**

Lesson 103 : **Function and How Function Work in Python Hindi**

Lesson 104 : **Return Single and Multiple Value and Variable from Function in Python Hindi**

Lesson 105 : **Nested Function in Python Hindi**

Lesson 106 : **Passing a Function as Parameter in Python Hindi**

Lesson 107 : **Function returning another Function in Python Hindi**

Lesson 108 : **Actual Argument and Formal Argument in Python Hindi**

Lesson 109 : **Positional Argument in Python Hindi**

Lesson 110 : **Keyword Argument in Python Hindi**

Lesson 111 : **Default Argument in Python Hindi**

Lesson 112 : **Variable Length Argument in Python Hindi**

Lesson 113 : **Keyword Variable Length Argument in Python Hindi**

Lesson 114 : **Anonymous Function or Lambda Expression in Python Hindi**

Lesson 115 : **Nested Lambda Function in Python Hindi**

Lesson 116 : **Passing Lambda Function to another Function in Python Hindi**

Lesson 117 : **Returning Lambda Function from a Function in Python Hindi**

Lesson 118 : **Immediately Invoked Function Expression in Python Hindi**

Lesson 119 : **Local Variable in Python Hindi**

Lesson 120 : **Global Variable in Python Hindi**

Lesson 121 : **global Keyword in Python Hindi**

Lesson 122 : **globals Function in Python Hindi**

Lesson 123 : **Recursion in Python Hindi**

Lesson 124 : **Pass or Call by Object Reference in Python Hindi**

Lesson 125 : **Function Decorator in Python Hindi**

Lesson 126 : **Passing Array to Function in Python Hindi**

Lesson 127 : **Returning Array from Function in Python Hindi**

Lesson 128 : **Passing and Returning Numpy Array in Python Hindi**

Lesson 129 : **Numpy Built in Math Functions in Python Hindi**

Lesson 130 : **Math Functions in Python Hindi**

Lesson 131 : **List in Python Hindi**

Lesson 132 : **Accessing List using for Loop in Python Hindi**

Lesson 133 : **Accessing List using while Loop in Python Hindi**

Lesson 134 : **append Method in Python Hindi**

Lesson 135 : **Getting List input from user in Python Hindi**

Lesson 136 : **insert Method in Python Hindi**

Lesson 137 : **pop Method in Python Hindi**

Lesson 138 : **remove Method in Python Hindi**

Lesson 139 : **index Method in Python Hindi**

Lesson 140 : **reverse Method in Python Hindi**

Lesson 141 : **extend Method in Python Hindi**

Lesson 142 : **count Method in Python Hindi**

Lesson 143 : **sort Method in Python Hindi**

Lesson 144 : **clear Method in Python Hindi**

Lesson 145 : **Slicing on List in Python Hindi**

Lesson 146 : **List Concatenation in Python Hindi**

Lesson 147 : **Repetition of List in Python Hindi**

Lesson 148 : **Aliasing List in Python Hindi**

Lesson 149 : **Copying and Cloning List in Python Hindi**

Lesson 150 : **Nested List in Python Hindi**

Lesson 151 : **Accessing Nested List using for Loop in Python Hindi**

Lesson 152 : **Accessing Nested List using while Loop in Python Hindi**

Lesson 153 : **Passing List to Function in Python Hindi**

Lesson 154 : **Returning List from Function in Python Hindi**

Lesson 155 : **list Function in Python Hindi**

Lesson 156 : **Slicing Nested List in Python Hindi**

Lesson 157 : **filter Function in Python Hindi**

Lesson 158 : **map Function in Python Hindi**

Lesson 159 : **reduce Function in Python Hindi**

Lesson 160 : **Generator Function Yield Statement and Next Function in Python Hindi**

Lesson 161 : **Tuple in Python Hindi**

Lesson 162 : **Access Tuple using for Loop in Python Hindi**

Lesson 163 : **Access Tuple using while Loop in Python Hindi**

Lesson 164 : **Slicing Tuple in Python Hindi**

Lesson 165 : **Tuple Concatenation in Python Hindi**

Lesson 166 : **Modifying Tuple Element in Python Hindi**

Lesson 167 : **Deleting Tuple in Python Hindi**

Lesson 168 : **Getting Tuple input from user in Python Hindi**

Lesson 169 : **Repetition of Tuple in Python Hindi**

Lesson 170 : **Aliasing Tuple in Python Hindi**

Lesson 171 : **How to Copy Tuple Elements in Python Hindi**

Lesson 172 : **Nested Tuple in Python Hindi**

Lesson 173 : **Accessing Nested Tuple using for Loop in Python Hindi**

Lesson 174 : **Accessing Nested Tuple using while Loop in Python Hindi**

Lesson 175 : **Slicing Nested Tuple in Python Hindi**

Lesson 176 : **Passing Tuple to Function in Python Hindi**

Lesson 177 : **Returning Tuple from Function in Python Hindi**

Lesson 178 : **List of Tuples in Python Hindi**

Lesson 179 : **Tuple of Lists in Python Hindi**

Lesson 180 : **Set Type in Python Hindi**

Lesson 181 : **Adding Single and Multiple Set Elements in Python Hindi**

Lesson 182 : **Deleting Set Element in Python Hindi**

Lesson 183 : **Accessing Set Elements using for Loop in Python Hindi**

Lesson 184 : **Getting Set input from User in Python Hindi**

Lesson 185 : **Copying Set Element in Python Hindi**

Lesson 186 : **Clearing Set All Elements in Python Hindi**

Lesson 187 : **Some Important Set Methods in Python Hindi**

Lesson 188 : **Passing Set to Function in Python Hindi**

Lesson 189 : **Returning Set from Function in Python Hindi**

Lesson 190 : **Dictionary in Python Hindi**

Lesson 191 : **Modifying Dictionary in Python Hindi**

Lesson 192 : **Adding Dictionary Item in Python Hindi**

Lesson 193 : **Deleting Dictionary Item in Python Hindi**

Lesson 194 : **How to Test Dictionary Key exist or not in Python Hindi**

Lesson 195 : **How to Remove All Elements from Dictionary in Python Hindi**

Lesson 196 : **How to Copy Dictionary in Python Hindi**

Lesson 197 : **Create Dictionary using formkeys Method in Python Hindi**

Lesson 198 : **get Method in Python Hindi**

Lesson 199 : **items Method in Python Hindi**

Lesson 200 : **keys Method in Python Hindi**

Lesson 201 : **values Method in Python Hindi**

Lesson 202 : **update Method in Python Hindi**

Lesson 203 : **pop Method in Python Hindi**

Lesson 204 : **popitem Method in Python Hindi**

Lesson 205 : **setdefault Method in Python Hindi**

Lesson 206 : **Accessing Dictionary using for Loop in Python Hindi**

Lesson 207 : **Getting Dictionary input from User in Python Hindi**

Lesson 208 : **Nested Dictionary in Python Hindi**

Lesson 209 : **Access Nested Dictionary using for Loop in Python Hindi**

Lesson 210 : **Nested Dictionary in Python Hindi**

Lesson 211 : **Access Nested Dictionary using for Loop in Python Hindi**

Lesson 212 : **Passing Dictionary to Function in Python Hindi**

Lesson 213 : **Returning Dictionary from Function in Python Hindi**

Lesson 214 : **List Comprehension in Python Hindi**

Lesson 215 : **Nested List Comprehension in Python Hindi**

Lesson 216 : **Set Comprehension in Python Hindi**

Lesson 217 : **Nested Set Comprehension in Python Hindi**

Lesson 218 : **Dictionary Comprehension in Python Hindi**

Lesson 219 : **How to decide when and why use Array List Tuple Set or Dictionary in Python Hindi**

Lesson 220 : **id Function type Function and getsizeof Function in Python Hindi**

Lesson 221 : **Some Important Function in Python Hindi**

Lesson 222 : **len Function in Python Hindi**

Lesson 223 : **min and max Function in Python Hindi**

Lesson 224 : **sorted Function in Python Hindi**

Lesson 225 : **Membership Operator with String List Tuple Set and Dictionary in Python Hindi**

Lesson 226 : **What Next After Completing Core Python Hindi**
