About the course Microsoft Edge

What can you do with Microsoft Edge? Microsoft Edge is the default browser for all Windows 10 devices. It's built to be highly compatible with the modern web. For some enterprise web apps and a small set of sites that were built to work with older technologies like ActiveX, you can use Enterprise Mode to automatically send users to Internet Explorer 11.How do I navigate in Microsoft edge? Navigating with the browser is pretty intuitive. Type a Web address into the search box, navigate forward and back with the arrows, and add favorites by clicking the Favorite (star) icon. If you want to open a new tab, click the + sign in the header bar or type Ctrl+T.How do I get Microsoft edge to work? Here are some solutions to common problems with the new Microsoft Edge . ... Close other tabs, extensions, and apps Close every tab except for the one that's showing the error message. Close other apps or programs that are running. Pause any downloads. Uninstall extensions you don't need.
