Mindluster Platform

About the course Building and Programming a Quadcopter

The first step of drone programming is knowing how to use the right programming languages, which could be low-level or high-level programming. Next, you can begin programming by using a programmable drone to access its programming and build your own app using a programming language.

Programming Category's Courses

Course Lesson(5)

Lesson 1 : **Building a Quadcopter p 1 Introduction**

Lesson 2 : **Building a Quadcopter p 2 Parts**

Lesson 3 : **Building a Quadcopter p 3 Assembly**

Lesson 4 : **Building a Quadcopter p 4 ESC Calibration with Hobbypower KK2 15**

Lesson 5 : **Building a Quadcopter p 5 First flight and other Info**
