Mindluster Platform

About the course Reinforcement Learning Full data

Reinforcement learning is a machine learning training method based on rewarding desired behaviors and/or punishing undesired ones. In general, a reinforcement learning agent is able to perceive and interpret its environment, take actions and learn through trial and error.

Programming Category's Courses

Course Lesson(6)

Lesson 1 : **Q Learning Intro Table Reinforcement Learning p 1**

Lesson 2 : **Q Learning Algorithm and Agent Reinforcement Learning p 2**

Lesson 3 : **Q Learning Agent Analysis Reinforcement Learning p 3**

Lesson 4 : **Creating A Reinforcement Learning RL Environment Reinforcement Learning p 4**

Lesson 5 : **Deep Q Learning w DQN Reinforcement Learning p 5**

Lesson 6 : **Training Testing Deep reinforcement learning DQN Agent Reinforcement Learning p 6**
