About the course MySQL Events for beginners

MySQL Events are tasks that run according to a schedule. Therefore, we sometimes refer to them as scheduled events. When you create an event, you are creating a named database object containing one or more SQL statements to be executed at one or more regular intervals, beginning and ending at a specific date and time.

Programming Category's Courses

Course Lesson(7)

Lesson 1 :
MySQL Event Tutorials for Beginners 1 Complete Introduction of MySQL Events Why should we use
