Mindluster Platform

About the course Make GraphQL API endpoints with WordPress

Neither WPGraphQL nor GraphQL API for WordPress are part of WordPress' core. Thus, it is not possible to rely on GraphQL in the way that plugins can rely on WordPress' REST API. As a result, plugins that implement Gutenberg blocks may only use REST to fetch data for their blocks .

Programming Category's Courses

Course Lesson(9)

Lesson 1 :
Using QraphQL in WordPress WooCommerce with ACF WGraphQL WooGraphQL Overview

Lesson 2 : **WordPress GraphQL Headless CMS in Static HTML Website**

Lesson 3 : **Static HTML Websites with React JS WordPress GraphQL**
