About the course Cabinetry Basics

Cabinetry A cabinet is a case or cupboard with shelves and/or drawers for storing or displaying items. Some cabinets are stand alone while others are built in to a wall or are attached to it like a medicine cabinet. Cabinets are typically made of wood, coated steel, or synthetic materials. What is cabinetry work? Cabinetmakers build, repair and install wooden cabinets, furniture and fixtures. They are employed by custom furniture manufacturers, construction companies and cabinetmaking contractors, or they may be self-employed.
