Mindluster Platform

About the course Mobile Apps with React Native

With react native, also known as RN, you can develop mobile applications using JavaScript. In a normal situation, the mobile apps use Java while developing an Android mobile app while Swift or Obj-C for app development for iOS. With React Native, you can develop mobile apps that function efficiently on both platforms .

Mobile Development Category's Courses

Course Lesson(4)

Lesson 1 : **Learn How to Build Mobile Apps with React Native**

Lesson 2 : **Learn How to Build Mobile Apps with React Native Part 2**

Lesson 3 : **Learn How to Build Mobile Apps with React Native Part 3**

Lesson 4 : **Learn How to Build Mobile Apps with React Native Part 4**
