Mindluster Platform

About the course use Nuxt js

Nuxt. js enables developers to build Server Side Rendered applications in which a Node. js server will deliver HTML to the client based on your Vue components (rather than running JavaScript on the client side). This will allow for better SEO than traditional SPAs built using Vue.

Programming Category's Courses

Course Lesson(26)

Lesson 1 : **1 Nuxt JS beginner tutorial In Depth Intro to Nuxt js | SPA SSR Static Site Vue js Family**

Lesson 2 : **2 Nuxt JS beginner tutorial Getting Started with NuxtJs | How to setup Nuxt Project**
