Mindluster Platform

About the course JQUERY VS VANILLA JS

Pure JavaScript can be faster for DOM selection/manipulation than jQuery as JavaScript is directly processed by the browser and it curtails the overhead which JQuery actually has. JQuery is also fast with modern browsers and modern computers. JQuery has to be converted into JavaScript to make it run in a browser .

Programming Category's Courses

Course Lesson(2)

Lesson 1 : **jQuery vs Vanilla JavaScript Selecting HTML Elements**

Lesson 2 : **jQuery vs Vanilla Javascript Adding Removing Classes More**
