Mindluster Platform

About the course React JS With Flux Architecture

Flux is an application architecture that Facebook uses internally for building the client-side web application with React. It is not a library nor a framework. It is neither a library nor a framework. It is a kind of architecture that complements React as view and follows the concept of Unidirectional Data Flow model.

Programming Category's Courses

Course Lesson(13)

Lesson 1 : **Developing React App with Flux**

Lesson 2 : **Developing React App with Flux Components Shopping cart App**

Lesson 3 : **Understanding Flux Components Action Dispatcher Store**

Lesson 4 : **Developing React App with Flux Components Shopping cart App**

Lesson 5 : **Flux Components Actions Store Dispatcher**

Lesson 6 : **React todo app with Flux**
