Mindluster Platform

About the course React Native and GraphQL eCommerce

The use of GraphQL for eCommerce has been beneficial specially for businesses which have adopted a Headless Commerce architecture. Due to the decoupling of the frontend presentation layer from the backend commerce engine, the frontend is heavily dependent of the correct data transfer to the frontend.

Programming Category's Courses

Course Lesson(25)

Lesson 1 : **React Native and Prisma GraphQL eCommerce Project Introduction**

Lesson 2 : **Setting up a Prisma GraphQL Server Part 0**

Lesson 3 : **Setting up React Native and looking into Prisma s Docker container Part 1**
