Mindluster Platform

About the course AWS AppSync

AWS AppSync is a new service that enables developers to manage and synchronize mobile app data in real time across devices and users, but still allows the data to be accessed and altered when the mobile device is in an offline state.

Programming Category's Courses

Course Lesson(3)

Lesson 1 : **AWS AppSync Tutorial with React**

Lesson 2 : **AWS AppSync with Apollo GraphQL**

Lesson 3 : **AWS Cognito Authentication Component**
