Mindluster Platform

About the course tsconfig json cli

The tsconfig. json file specifies the root files and the compiler options required to compile the project. JavaScript projects can use a jsconfig. json file instead, which acts almost the same but has some JavaScript-related compiler flags enabled by default.

Programming Category's Courses

Course Lesson(2)

Lesson 1 : **How to make a CLI in Node js with Inquirer**

Lesson 2 : **How to Publish a NPM Package**
