Mindluster Platform

About the course Clojure

Clojure is being used extensively for processing large volumes of data. It is very well suited to data mining/commercial-AI (ie: Runa) and large scale predictions (aka WeatherBill). Clojure's concurrency story really helps in these data heavy domains where parallel processing is simply the only answer.

Programming Category's Courses

Course Lesson(2)

Lesson 1 : **A Intro to Clojure and Clojure Syntax**

Lesson 2 : **Clojure Neural Network Art**
