Mindluster Platform

About the course Git branches and Git HEAD

When working with Git, only one branch can be checked out at a time - and this is what's called the "HEAD" branch. Often, this is also referred to as the "active" or "current" branch. Git makes note of this current branch in a file located inside the Git repository, in . git/HEAD .

Programming Category's Courses

Course Lesson(15)

Lesson 1 : **Git branches and Git HEAD 50 Most common Git operations**

Lesson 2 : **Git branches and Git HEAD 51 Overview of the current project state**

Lesson 3 : **Git branches and Git HEAD 52 Installing GitHub Desktop**

Lesson 4 : **Git branches and Git HEAD 53 GitHub Desktop Overview**

Lesson 5 : **Git branches and Git HEAD 54 What is branch in Git**

Lesson 6 : **Git branches and Git HEAD 55 What is HEAD in Git**

Lesson 7 : **Git branches and Git HEAD 56 Third commit**

Lesson 8 : **Git branches and Git HEAD 57 Git repository changes after third commit**

Lesson 9 : **Git branches and Git HEAD 58 Checkout specific commit**

Lesson 10 : **Git branches and Git HEAD 59 Why do we need branches**

Lesson 11 : **Git branches and Git HEAD 60 Git branches management**

Lesson 12 : **Git branches and Git HEAD 61 Create new branch**

Lesson 13 : **Git branches and Git HEAD 62 Commit changes in the new branch**

Lesson 14 : **Git branches and Git HEAD 63 Explore commit in the new branch**

Lesson 15 : **Git branches and Git HEAD 64 Git reuses blobs with the same contents**
