Mindluster Platform

About the course Databases with Redis

Redis is an open-source, in-memory key-value data store. A key-value data store is a type of NoSQL database in which keys serve as unique identifiers for their associated values. Any given Redis instance includes a number of databases, each of which can hold many different keys of a variety of data types.

Programming Category's Courses

Course Lesson(8)

Lesson 1 : **Building Databases with Redis Tutorial Redis and Command line Client | packtpub com**

Lesson 2 : **Building Databases with Redis Tutorial Server CONFIGuration | packtpub com**

Lesson 3 :
Building Databases with Redis Tutorial Introducing an Image Gallery Application | packtpub com

Lesson 4 : **Building Databases with Redis Tutorial Tagging Images with Sets | packtpub com**

Lesson 5 : **Building Databases with Redis Tutorial Chatting Application | packtpub com**

Lesson 6 : **Building Databases with Redis Tutorial Master Slave Replication | packtpub com**

Lesson 7 : **Building Databases with Redis Tutorial Explaining Transactions | packtpub com**

Lesson 8 : **Building Databases with Redis Tutorial Lua Script | packtpub com**
