Mindluster Platform

About the course Neo4j Graphs and Cypher

Cypher is Neo4j's graph query language that lets you retrieve data from the graph. It is like SQL for graphs, and was inspired by SQL so it lets you focus on what data you want out of the graph (not how to go get it).

Programming Category's Courses

Course Lesson(7)

Lesson 1 : **Learning Neo4j Graphs and Cypher Installation Linux | packtpub com**

Lesson 2 : **Learning Neo4j Graphs and Cypher In Real Life | packtpub com**

Lesson 3 : **Learning Neo4j Graphs and Cypher Graph Databases Neo 4j | packtpub com**

Lesson 4 : **Learning Neo4j Graphs and Cypher Create | packtpub com**

Lesson 5 : **Learning Neo4j Graphs and Cypher Read | packtpub com**

Lesson 6 : **Learning Neo4j Graphs and Cypher Update Delete | packtpub com**

Lesson 7 : **Learning Neo4j Graphs and Cypher Query Aggregations and Functions | packtpub com**
