Mindluster Platform

About the course applications with Apache Kafka

Kafka is primarily used to build real-time streaming data pipelines and applications that adapt to the data streams. It combines messaging, storage, and stream processing to allow storage and analysis of both historical and real-time data.

Programming Category's Courses

Course Lesson(3)

Lesson 1 : **Build scalable applications with Apache Kafka The Course Overview | packtpub com**

Lesson 2 :
Build scalable applications with Apache Kafka Sending Events to Kafka Producers API | packtpub com

Lesson 3 :
Build scalable apps with Apache Kafka Elect Partitn Leadrs Kafka Controller Component| packtpub com
