Mindluster Platform

About the course Software Architecture with Python

Software architecture is, simply, the organization of a system. This organization includes all components, how they interact with each other, the environment in which they operate, and the principles used to design the software.

Programming Category's Courses

Course Lesson(4)

Lesson 1 : **Software Architecture with Python The Course Overview | packtpub com**

Lesson 2 : **Software Architecture with Python Understanding Readability | packtpub com**
