Mindluster Platform

About the course Deep with Keras Programming

TensorFlow is an open-sourced end-to-end platform, a library for multiple machine learning tasks, while Keras is a high-level neural network library that runs on top of TensorFlow. Both provide high-level APIs used for easily building and training models .

Programming Category's Courses

Course Lesson(3)

Lesson 1 : **Deep Learning with Keras The Course Overview| packtpub com**

Lesson 2 : **Deep Learning with Keras Installing and Configuring Keras| packtpub com**

Lesson 3 : **Deep Learning with Keras Deep Convolutional Neural Network â€“ DCNN| packtpub com**
