Mindluster Platform

About the course Machine Learning with Scikit

Scikit-learn is a Python library used for machine learning. More specifically, it's a set of â€“ as the authors say â€“ simple and efficient tools for data mining and data analysis. The framework is built on top of several popular Python packages, namely NumPy, SciPy, and matplotlib .

Programming Category's Courses

Course Lesson(14)

Lesson 1 : **Machine Learning with Scikit learn The Course Overview | packtpub com**

Lesson 2 : **Machine Learning with Scikit learn What Is Simple Linear Regression | packtpub com**

Lesson 3 :
Machine Learning with Scikit learn KNN Lazy Learning and Non Parametric Models| packtpub com

Lesson 4 :
Machine Learning with Scikit learn Extracting Features from Categorical Variables| packtpub com

Lesson 5 : **Machine Learning with Scikit learn Multiple Linear Regression | packtpub com**

Lesson 6 :
Machine Learning with Scikit learn Binary Classification with Logistic Regression| packtpub com

Lesson 7 : **Machine Learning with Scikit learn Bayes Theorem| packtpub com**

Lesson 8 : **Machine Learning with Scikit learn Decision Trees| packtpub com**

Lesson 9 : **Machine Learning with Scikit learn Bagging | packtpub com**

Lesson 10 : **Machine Learning with Scikit learn The Perceptronâ€“Basics| packtpub com**

Lesson 11 : **Machine Learning with Scikit learn Kernels and the Kernel Trick| packtpub com**

Lesson 12 : **Machine Learning with Scikit learn Nonlinear Decision Boundaries| packtpub com**

Lesson 13 : **Machine Learning with Scikit learn Clustering| packtpub com**

Lesson 14 : **Machine Learning with Scikit learn Principal Component Analysis| packtpub com**
