About the course Concurrency in Python

The dictionary definition of concurrency is simultaneous occurrence. In Python, the things that are occurring simultaneously are called by different names (thread, task, process) but at a high level, they all refer to a sequence of instructions that run in order.

Programming Category's Courses

Course Lesson(9)

Lesson 1 : **Learning Concurrency in Python The Course Overview | packtpub com**

Lesson 2 : **Learning Concurrency in Python Concurrency and I O Bottlenecks | packtpub com**

Lesson 3 : **Learning Concurrency in Python Threads in Python | packtpub com**

Lesson 4 : **Learning Concurrency in Python Deadlocks and Race Condition | packtpub com**

Lesson 5 : **Learning Concurrency in Python Sets and Decorator | packtpub com**

Lesson 6 : **Learning Concurrency in Python Testing Strategies | packtpub com**

Lesson 7 : **Learning Concurrency in Python Concurrent Futures | packtpub com**

Lesson 8 :
Learning Concurrency in Python Working Around the GIL and Daemon Processes | packtpub com

Lesson 9 : **Learning Concurrency in Python Event Driven Programming | packtpub com**
