Mindluster Platform

About the course API Serverless Application

Serverless is a cloud-native development model that allows developers to build and run applications without having to manage servers. There are still servers in serverless, but they are abstracted away from app development.

Programming Category's Courses

Course Lesson(5)

Lesson 1 :
Deep Dive into API Gateway and Building a Serverless Application The Course Overview| packtpub com

Lesson 2 :
Deep Dive into API Gateway and Building a Serverless Application Build an API Gateway| packtpub com

Lesson 3 :
Deep Dive into API Gateway and Building a Serverless Application Setting Up IAM| packtpub com

Lesson 4 :
Deep Dive into API Gateway and Building a Serverless Application Integrate AWS| packtpub com

Lesson 5 :
Deep Dive into API Gateway and Building a Serverless Application AWS Serverless| packtpub com
