About the course NLP with Python

Natural language processing (NLP) is a field that focuses on making natural human language usable by computer programs. NLTK, or Natural Language Toolkit, is a Python package that you can use for NLP. A lot of the data that you could be analyzing is unstructured data and contains human-readable text .

Programming Category's Courses

Course Lesson(6)

Lesson 1 :
Next Generation Natural Language Processing with Python The Course Overview |packtpub com

Lesson 2 :
Next Generation Natural Language Processing with Python Find Loading Spam SMS Data|packtpub com

Lesson 3 :
Next Generation Natural Language Processing with Python Understand Text as Noisy Data|packtpub com

Lesson 4 :
Next Generation Natural Language Processing with Python Supervised Learning Refresher|packtpub com

Lesson 5 :
Next Generation Natural Language Processing with Python Find Structure in Text Corpus|packtpub com

Lesson 6 :
Next Generation Natural Language Processing with Python Working with Vector Space|packtpub com
