Mindluster Platform

About the course Python for Data Science

Python is open source, interpreted, high level language and provides great approach for object-oriented programming. It is one of the best language used by data scientist for various data science projects/application. Python provide great functionality to deal .

Programming Category's Courses

Course Lesson(8)

Lesson 1 : **Learning Python for Data Science The Course Overview | packtpub com**

Lesson 2 : **Learning Python for Data Science Installing Anaconda | packtpub com**

Lesson 3 : **Learning Python for Data Science 1D Arrays with NumPy | packtpub com**

Lesson 4 : **Learning Python for Data Science Create DataFrames | packtpub com**

Lesson 5 : **Learning Python for Data Science Matplotlib Introduction | packtpub com**

Lesson 6 : **Learning Python for Data Science Machine Learning | packtpub com**

Lesson 7 : **Learning Python for Data Science Linear Regression | packtpub com**

Lesson 8 : **Learning Python for Data Science Preparing Data for Machine Learning | packtpub com**
