Mindluster Platform

About the course Hands on Machine Learning for Data Mining

Data Mining is performed on certain data sets by humans to find interesting patterns between the items in the data set. Data Mining uses techniques created by machine learning for predicting the results while machine learning is the capability of the computer to learn from a minded data set.

Programming Category's Courses

Course Lesson(4)

Lesson 1 : **Hands on Machine Learning for Data Mining The Course Overview|packtpub com**

Lesson 2 :
Hands on Machine Learning for Data Mining General Model Interpretation|packtpub com

Lesson 3 : **Hands on Machine Learning for Data Mining Modifying Model Options|packtpub com**

Lesson 4 : **Hands on Machine Learning for Data Mining Combine Models|packtpub com**
