Mindluster Platform

About the course Microservices with Azure

Microservices are an architectural approach to building applications where each core function, or service, is built and deployed independently. Microservice architecture is distributed and loosely coupled, so one component's failure won't break the whole app.

Programming Category's Courses

Course Lesson(7)

Lesson 1 : **Microservices with Azure The Course Overview|packtpub com**

Lesson 2 : **Microservices with Azure Architecture of Employee Attendance Tracker|packtpub com**

Lesson 3 : **Microservices with Azure Installing Local Service Fabric Cluster|packtpub com**

Lesson 4 : **Microservices with Azure Securing Service Fabric Cluster|packtpub com**

Lesson 5 : **Microservices with Azure Setting Up Application Insights|packtpub com**

Lesson 6 : **Microservices with Azure Exploring Auto Scaling|packtpub com**

Lesson 7 : **Microservices with Azure Create a Windows Container in Service Fabric|packtpub com**
