Mindluster Platform

About the course Introduction to Deep

Deep Learning is a subset of Machine Learning that uses mathematical functions to map the input to the output. These functions can extract non-redundant information or patterns from the data, which enables them to form a relationship between the input and the output .

Programming Category's Courses

Course Lesson(6)

Lesson 1 : **Introduction to Deep Learning with Caffe2 The Course Overview | packtpub com**

Lesson 2 :
Introduction to Deep Learning with Caffe2 Learn about Matrices Using Python â€“ NumPy | packtpub com

Lesson 3 : **Introduction to Deep Learning with Caffe2 Caffe2 Introduction | packtpub com**

Lesson 4 : **Introduction to Deep Learning with Caffe2 How Machines Learn to See | packtpub com**

Lesson 5 : **Introduction to Deep Learning with Caffe2 Machine Learning Strategy | packtpub com**

Lesson 6 : **Introduction to Deep Learning with Caffe2 Sequence Learning | packtpub com**
